STRAWBERRY BANANA BREAD

5 METHOD STEPS

- Preheat oven to 180C. Grease and line the base and sides of a 10cm x 22cm (base measurement) loaf pan with baking paper, allowing the 2 long sides to overhang.
- Place the flour, sugar and baking powder in a large bowl. Whisk the banana, egg, butter and buttermilk in a medium bowl. Add the egg mixture and chopped strawberry to the flour mixture and stir to combine. Pour into the prepared pan. Bake for 1 hour or until a skewer inserted in the centre comes out clean. Set aside in the pan for 5 mins to cool before turning onto a wire rack to cool completely.
- Meanwhile, to make the strawberry buttercream, combine strawberry and sugar in a small saucepan over medium heat. Cook for 5 mins or until the sugar dissolves and strawberry breaks down. Cook for 2 mins or until mixture thickens slightly. Set aside to cool.
- Use an electric mixer to beat the butter in a bowl until very pale. Gradually add the icing sugar, beating well after each addition. Beat in the strawberry mixture.
- Spread the strawberry buttercream over the top of the banana bread. Top with halved or quartered strawberries.

6 METHOD STEPS

1. Start by cutting your construction paper into one-inch squares. Place each color separately in a container.
2. Once you have cut up all your paper squares and each container is ready, add water. Cover the paper completely and allow to soak for 20 minutes.
3. When the 20 minutes is finished (the hardest part is always waiting), take one container and squeeze the excess water out of the paper. Place the paper in a food processor and pulse until the paper becomes pulp! Place the pulp back into its container. Go ahead and repeat with the next two colors until you have three containers of pulp!
4. Divide the packages of seeds between the three containers gently mixing them into the pulp.
5. Start by taking a bit of each color from each container and forming it into a ball! We wanted these to resemble the Earth for Earth Day. If you have chosen other colors that are great too! To make the Earth try not to mix up the colors too much.
6. Place your homemade seed bombs on a parchment lined baking tray. You can go ahead and press a few more seeds into the balls if you think they need a few more. Let your tray dry overnight.

3D LADY BUGS

WHAT YOU'LL NEED

- paper in red and black (and just a little bit of white)
- scissors

- black marker

SCAN THE QR

ACCESS THE
INSTRUCTIONS
LINK

5 METHOD STEPS

1. Cut a circle shape out of red paper (it's best to use construction paper as base). Cut strips of red paper.
2. Take one strip of paper and glue it onto the base as shown on the picture. Glue on the next one at a 90° angle to the first one. Continue with next two, placing them between the first two. Depending on the size of the ladybug you are making you will need, or better say be able to, add more strips of paper to make the body of the ladybug more full.
3. Cut the dots (we used the glue cap as a template) out of black paper. Also cut a half circle shape for the head and two antenna. Cut two small oval shapes out of white paper and draw the eyes with black marker.
4. Glue on the dots and head with the stick glue.
